WALL STREFT, MONDAY, May 20—6 P. M. On 'Chango to-day the market showed the same difficulty between holders and buyers in wheat, although prices on the whole were heavy. Flour was quiet, with buyers reticent. Cotton was

there was but little of special interest, the largest fluctuations being in Eric and Pacific Mail, the former of which ranged 23/2 per cent, while the latter vibrated 2% per cent. The closing of the transfer books in the case of the latter drew off the particular interest in it this afternoon, although the result of the election is still in doubt. The matter of the increased subsidy was o come up in the House this afternoon, but this will probably go through now. The opposition have fought ably against it, and as they have no reward to look for other than the satisfaction of their constituents, it is probable that they will not interpose many difficulties in the future.

Erie was the leading feature of interest in the market upon a report from London coming through private sources that a ticket for the coming election eaded by Colonel Tom Scott, of the Pennsylvania Central, with other prominent New York names, had been circulated about London, and received the support of Bischoffsheim and the rest of the Atlantic and Great Western interest. The recent movement of the stock during the latter part of munications have certainly passed

last week, and which continued to-day to put the stock up to 75%, is a result of this report, while it lescing the Heath and Raphael or English protective committee interest in his favor. Important tween them of late, confidently supposed to be of that character. It is scarcely neary to say that New York does not cordially andorse this nomination, a fact it is even said that the great Wall street evangelist, Daniel Drew, has ed out his short contract of 50,000 shares, for the purpose of opposing it. It was for this reason that Vanderbilt's name was trotted out on Saturday, and the pressure will be very stormy and induce him to enter the contest, the general impression among the New York people being, that It Scott gets control of the Erie road, it will be ru simply as a sort of side show to the Pennsylvania Dentral. This was the great point which Pisk and Gould presented in justification of their seizure of Erie-viz., that they had pre-vented it passing into the hands of a rival corporation in another State. The accession of Commodore Vanderbilt to its control would be only less objectionable, but the passage of this great corporation into the hands of Colonel Scott—a man of undoubted talent, but already controlling too many railroads in a country such as this—would almost be equal to the evil of the Fish-Gould management. A sig-nificant fact in this connection is to be found in the recent departure of J. Edgar Thomp-non, of the Pennsylvania Railway Company, for Europe, ostensibly for the benefit of his health, but in reality, it is thought, to forward Colonel Scott's aspirations. It may be interesting to some of these gentlemen to learn that a representative of a London financial lournal, who has been travelling over the Eric Railroad during the past month, returned to New York to-day, after his tour of inspection, and leaves for London at an early date to communicate his information to the English stockholders. He will, perhaps, give them better understanding of the value of the property they control than Colonel Scott's agents. It has almost passed out of the recollection of that excellent authority, "the oldest inhabitant," when Erie paid a dividend; but once let it pass into the control of the Pennsylvania Central, and the youngest inhabitant-barring accdents-will not live to see it resume that healthy practice. For instance, take Cincinnati, Columbus and Indiana Central, familiarly known on the street as "Cough Candy and Ice Cream," which was quite a feature to-day, advancing to 42%. This road runs almost parallel with Fort Wayne, with which it is part of the leased property of the Pennsylvania Central. When the great Railroad King is long of Cincinnati, Columbus and Indiana Central, the traffic upon this branch is very heavy, but when he happens to be short it is singularly diverted to Fort Wayne. The feeling in Wall street is certainly against Scott's success in this matter, but the chances are largely in the Colonel's favor.

THE GENERAL STOCK LIST was extremely quiet, the closing of the transfer books in Pacific Mail taking even the interest out of that stock, which with Erie and C. C. and I. C., as ove mentioned, were the only features of the list

GOLD 113% A 113%. The adoption of the supplementary article to the treaty being already discounted on Saturday in the decline in gold to 113%, the market was quiet today, with sales at 113% in the forenoon, but during the afternoon alternately at 113% a 113%, closing at these figures. The carrying rate ranged from 3 to 7 per cent, with some few loans flat. The steadiess of the gold premium was largely the result of sainess, induced by a holiday in London to-day

(whit-Monday), and the consequent absence of quotations. The Customs duties to-day were \$562,000. The Assistant Treasurer paid out \$595,000 gold on account of five-twenties redeemed, making the total to date \$50,115,000; and \$279,000 on account of interest on the public debt. The Gold Room this afternoon passed a resolution that no business should be transacted before ten A. M. nor after four P. M. under a penalty of \$100 for the first offence and suspension for sixty days for the second offence. The operations of the Gold Exchange Bank were as follows:-Gross clearings, \$64,227,000; gold balances, \$2,487,938; currency bal-

BOUTWELL'S RESOURCES. The following are the Treasury balances at close of business to-day:-Currency, \$10,500,000; coin, \$98,500,000; of which \$25,500,000 are coin certificates. As there has been some controversy of late in regard to Mr. Boutwell's relation to the gold movement it may be of interest to examine how this statement explains his position. First we have— Coin balances \$98,500,000
Less coin certificates 25,500,000

Total.....\$61,500,000 The Treasury currency balance is only \$10,500,000, or not more than enough for the general working of the government, therefore we must deduct

\$20,000,000 from the coin balance for the redemption of the 3 per cent certificates ordered; thus:-

### PROBABLE MURDER.

Bloodshed Over a Railroad Extension-A Contractor Enticed into a Yard and

This spring the South Side Railroad Company contracted with Robert White for the extension of their track from Rockaway village to the sea side, their track from Rockaway village to the sea side, three miles distant. For many years the railroad company has been opposed in its movements by an eccentric individual, named Samuel Norton. In the extension of the track it was necessary to pass through land belonging to Norton.

Yesterday morning Samuel Norton called Contractor White into his yard at Rockaway and told him not to attempt to drive any piles in the creek. White responded that he was subservient to the orders of President Fox. Unless ordered to desist by him he should certainly go ahead with the work. Norton, it is alleged, called him some hard names, all of which White took in good part, and was about to walk away, when Franklin Norton, the old man's son, came from the house and continued the abuse. As White was nearing the railroad track Norton the younger, it is said, rusned back to the house and secured a revolver, and, following White, shot at him, one hall passing through his ear and the other entering the abdomen similar to the way in which Fisk was killed. White fell to the ground, where he remained until found by Civil Engineer Farnham, who had him removed to Mott's Hotel. Dr. Auerbach probed the wound, but failed to find the ball. Soon after the shooting Norton was arrested by Deputy Sheriff Carroll, who took him to Jamaica, and Judge Brinckerhoff committed him to jail. The affair will be investigated to-day. three miles distant. For many years the railroad

#### STREET CLEANING.

The Trouble with the Contract. The Board of Police has issued instructions inviting propositions for the contract for cleaning the streets of the city in the event of the failure of the present contractor to perform the work in a manner satisfactory to the Board. Under the act recently passed by the Legislature the Board of Police gets immediate control over the contract, but until the 4th day of June the Board does not come into all the power given to it by the act just passed. From that date the Police Commission ers assume entire charge of the streets, and can at will give out the contract to another party, or create a bureau of street cleaning, and do the work through the department. The feeling in the Board at present is that this would be an amount of extra labor on the Commissioners for which they have scarcely time, and the chances are that the prospect of success would be only doubtful. Another means of doing the work that has been proposed to the Board is to divide up the city into districts, and appoint a separate contractor for each division. This plan, however, is not likely to gain upon the Board, as the difficulty in the way of finding a number of men to take the contracts who would be in a position to perform the duties required of them is very great. The principal obstacle against any arrangement of that kind would be the want of the necessary machinery to clear up and carry the dirt. The probability is, from present indications, that the Board will give the contract for the cleaning of the entire city to one man, if the work is not properly done up to the Fourth of June, By this means the Commissioners will be able to keep up a strict supervision of the work, and give the people the much needed blessing of clean thoroughfares. A much mooted question in relation to this subject is the dumping of the garbage and dirt removed from the city. The Commissioners of Police will not allow any dumping on any place within the city limits, but will insist upon the contractor putting all the dirt, garbage and other refusal into boats at the foot of some piers that will be designated for the purpose and then taking it all away from the city. Whether the useless portions of the refuse will then be flung into the water at Sandy Hook or deposited upon some Island set aside for the purpose has not yet been decided by the Board, but in all probability a place will be found down the bay for the purpose of dumping the garbage on. Commissioner Barr is of opinion that the cheapest and best way to clean the streets and keep them in a healthy condition would be to give the work to one man and by a constant surveillance by the Police keep him up to his work. into districts, and appoint a separate contractor for
